**ABOUT**

**e-Lithuania cluster**

e-Lithuania is a Lithuanian IT company cluster that aims to spread the word of Lithuania’s ICT sector potential, grow the competitiveness of the cluster members and offer eGovernment as well as eBusiness solutions to Lithuanian and international companies.

e-Lithuania cluster’s vision is to become a reliable and recognized IT company alliance, a partner, which creates innovative and competitive eGovernment and eBusiness solutions that build added value.

The cluster is comprised of 9 members: Agmis, Algoritmy sistemas, Alna, Asseco, Blue Bridge Code, Etronika, Hnit-Baltic, NRD CS and Iamus. Alongside cluster members stands Lithuania’s ICT association INFOBALT.

CASE STUDIES

NRD Cyber Security

In 2016, NRD Cyber Security assisted Bangladesh Computer Council (BCC) in the establishment of the Bangladesh e-Government Computer Incident Response Team (BGD e-Gov CIRT). After the successful team launch, the need for increased maturity was identified and BCC CIRT LAB was established to provide BGD e-Gov CIRT with additional OSINT, incident investigation, education and scientific applied approach capabilities. As the team was growing and recognised the importance of cyber visibility and oversight of Critical Information Infrastructures (CIIs) at national level in Bangladesh, NRD Cyber Security has created and started the deployment of cyber sensor technology.

Alna Business Solutions

Alna Government Finance is a complete financial management and accounting solution for government institutions, which enables transparent management of the budget and its execution.

agmis innovative IT solutions

Agmis has helped create the AOK Bundesverband, the German State Health Insurance. Two disease prevention applications have been developed to help German citizens. Gesund-Genießen-App encourages the change of eating habits - recommends recipes that form the shopping baskets of users. Vorsorge-App, in accordance with the user’s age, health history, etc. recommends preventive checks and helps you to sign up for appointments with a specialist he/she might need.
